FIRST CALL FOR PAPERS

11th International CIRCLE Conference
[The College for International Retailing, Consumers, Leisure and Entrepreneurship]

Hosted by:
The University of Manchester

23/26th April 2014
Keynote

The International Conference has two goals. The first goal is to provide an international environment for different academic/professional approaches and discussions on recent development in all business fields including consumer behaviour and retailing theory/practice in a contemporary turbulent business arena.

The second goal is to provide the opportunity for young scholars, practitioners and PhD students to have their work validated and benchmarked within the benevolent academic and professional community of colleagues from different international contexts. The young scholars, studying for their PhD are invited also to their symposium and to meet with their supervisory team.

The conference engages in interdisciplinary research and consultancy projects in order to explore and examine consumer behaviour in local, regional, national and international contexts for a range of service industries including events, fashion, finance, hospitality, leisure, marketing, retailing and tourism. All research activities/projects/conference proceedings are disseminated with the dual purpose of assisting managers and practitioners who work in the industry as well as fuelling further academic study and debate in this important emerging research area.

From the University of Manchester website:

*The University of Manchester is home to twenty-five Nobel Prize winners who have worked or studied here. And more than nine out of ten of our graduates go straight into employment or continued studies.*
